

## LED driver 12VDC 100W slim

SKU: US-100-12-L11 Category: Drivers

### Technical information

<b>Power:</b>	100W
<b>Product size:</b>	320 x 30 x 18.3 mm
<b>Operating temperature:</b>	-20 +45 C°
<b>Frequency:</b>	50/60 Hz
<b>PF:</b>	≥0.90
<b>IP:</b>	IP20
<b>Warranty:</b>	5 years
<b>About the product:</b>	Class II, SELV
<b>Input voltage:</b>	176-264 VAC
<b>Protections:</b>	SCP/OLP/OVL/OTP

The Eurolight LED Driver 12VDC 60W Slim is a compact and efficient power supply designed specifically for LED lighting applications. With its slim and sleek design, this driver offers a space-saving solution without compromising on performance.

The LED Driver 12VDC 60W Slim delivers a stable and reliable 12VDC output, making it ideal for powering low-voltage LED lights, strips, and other compatible devices. It provides sufficient power to handle a significant load of LED lights, ensuring consistent and optimal performance.

Equipped with built-in protection features, including short-circuit, over-voltage, and over-temperature protection, the LED Driver 12VDC 60W Slim safeguards both the driver and connected LED lights from potential damage. This ensures a safe and reliable operation, prolonging the lifespan of your LED lighting system.

Installation of the driver is simple and hassle-free, with clearly labeled input and output terminals for easy connectivity. It operates within a wide input voltage range, ensuring compatibility with various power sources.

The LED Driver 12VDC 60W Slim is highly energy-efficient, minimizing

The LED Driver NEVDS 60W DM is highly energy efficient, minimizing energy wastage and reducing electricity consumption. This not only helps to lower energy costs but also contributes to a more sustainable and environmentally friendly lighting solution.
