LED driver 12VDC 60W

Technical information

SKU: LS-60-12 LII Category: Drivers Tag:
6920057011825

Power:	<i>60W</i>
Product size:	<i>187 x 45 x 30.5 mm</i>
Operating temperature:	<i>-20 +45 C°</i>
Frequency:	<i>50/60 Hz</i>
PF:	<i>≥0.90</i>
IP:	<i>IP20</i>
Warranty:	<i>5 years</i>
About the product:	<i>Class II, SELV</i>
Input voltage:	<i>176-264 VAC</i>
Protections:	<i>SCP/OLP/OVL/OTP</i>

The Eurolight LED Driver 12VDC 60W is a high-quality and efficient power supply designed specifically for LED lighting applications. This driver is built to provide a stable and reliable power source, ensuring optimal performance and longevity of your LED lighting setup.

With its compact and durable design, the LED Driver 12VDC 60W is suitable for a wide range of residential and commercial lighting projects. It delivers a constant 12VDC output, making it ideal for powering low-voltage LED lights, strips, and other compatible devices.

This driver has a maximum power output of 60W, allowing it to handle a significant load of LED lights. It is equipped with built-in protection mechanisms, including short-circuit, over-voltage, and over-temperature protection, to safeguard both the driver and connected LED lights from potential damage.

Installation of the Eurolight LED Driver is simple and convenient, with clearly labeled input and output terminals for easy connection. It operates within a wide input voltage range, ensuring compatibility with different power sources.

The LED Driver 12VDC 60W boasts high energy efficiency, minimizing energy waste and reducing electricity consumption. This not only helps save on energy costs but also contributes to a more sustainable and environmentally friendly lighting solution.

Eurolight prides itself on the quality and reliability of its LED drivers. The LED Driver 12VDC 60W undergoes stringent testing and complies with safety standards to ensure optimal performance and long-term reliability.

In summary, the Eurolight LED Driver 12VDC 60W is a trusted and efficient power supply solution for your LED lighting needs. With its compact design, stable output, and built-in protective features, it offers reliable and hassle-free operation, ensuring your LED lights shine brightly and consistently. Whether for residential or commercial applications, this driver delivers the power and performance required for a successful LED lighting installation.
