LED driver 12VDC 75W

Technical information

SKU: LS-75-12 L11 Category: Drivers Tag:
6920057011856

Power:	75W
Product size:	187 x 45 x 30.5 mm
Operating temperature:	-20 +45 C°
Frequency:	50/60 Hz
PF:	≥0.90
IP:	IP20
Warranty:	5 years
About the product:	Class II, SELV
Input voltage:	176-264 VAC
Protections:	SCP/OLP/OVL/OTP

The Eurolight LED Driver 12VDC 75W is a high-quality and reliable power supply specifically designed for LED lighting applications. This driver is built to deliver stable and efficient power, ensuring optimal performance and longevity of your LED lighting system.

With its compact and sturdy design, the LED Driver 12VDC 75W is suitable for a wide range of residential and commercial lighting projects. It provides a constant 12VDC output, making it perfect for powering low-voltage LED lights, strips, and other compatible devices.

This driver has a maximum power output of 75W, allowing it to handle a substantial load of LED lights with ease. It is equipped with built-in protection features, including short-circuit, over-voltage, and over-temperature protection, to safeguard both the driver and connected LED lights from potential damage.

Installation of the Eurolight LED Driver is straightforward, with clearly labeled input and output terminals for easy connection. It operates within a wide input voltage range, ensuring compatibility with various power sources.

The LED Driver 12VDC 75W offers high energy efficiency, minimizing energy waste and reducing electricity consumption. This not only helps save on energy costs but also contributes to a greener and more sustainable lighting solution.

Eurolight prioritizes the quality and reliability of their LED drivers. The LED Driver 12VDC 75W undergoes rigorous testing and complies with safety standards to ensure optimal performance and long-term reliability.
