LED driver 24VDC 60W

Technical information

SKU: LS-60-24 LI1 Category: Drivers Tag:
6920057011818

Power:	60W
Product size:	187 x 45 x 30.5 mm
Operating temperature:	-20 +45 C°
Frequency:	50/60 Hz
PF:	≥0.90
IP:	IP20
Warranty:	5 years
About the product:	Class II, SELV
Input voltage:	176-264 VAC
Protections:	SCP/OLP/OVL/OTP

The Eurolight LED Driver 24VDC 60W is a powerful and efficient power supply specifically designed for LED lighting applications. With its robust performance and reliable output, this driver ensures optimal operation of your LED lights.

With a maximum power output of 60W, the LED Driver 24VDC 60W is capable of handling a wide range of low-voltage LED lights, strips, and other compatible devices. It delivers a stable and regulated 24VDC output, providing consistent power to your LED lighting system.

Equipped with built-in protection features, including short-circuit, over-voltage, and over-temperature protection, the LED Driver 24VDC 60W ensures the safety and longevity of both the driver and the connected LED lights. These protection mechanisms safeguard against potential damage, ensuring reliable and worry-free operation.

Installation of the driver is simple and user-friendly, with clearly labeled input and output terminals for easy connectivity. It operates within a wide input voltage range, allowing for compatibility with various power sources and installations.

The LED Driver 24VDC 60W is highly energy-efficient, minimizing energy wastage and reducing electricity consumption. This not only helps to lower energy costs but also promotes a more sustainable and environmentally friendly lighting solution.

Eurolight is committed to delivering high-quality and reliable LED drivers. The LED Driver 24VDC 60W undergoes rigorous testing and meets safety standards to ensure its performance and durability.
